

Revolutionize security and compliance management with ServiceNow's intelligent solutions

Harness the power of automation and analytics for proactive security defense and compliance adherence

In today's digital landscape, where cyber threats loom large and regulatory compliance demands are ever-increasing, organizations face an ongoing challenge in safeguarding their assets and maintaining operational resilience. To address these challenges effectively, modern enterprises are turning to innovative solutions that streamline security incident response, enhance risk management, and ensure compliance with industry standards and regulations.

Introducing ServiceNow's Integrated Risk Management (IRM) and Security Operations (SecOps) platform, a comprehensive suite designed to empower organizations with proactive security measures, efficient incident response, and robust compliance management.

Why clients are choosing Virtusa

At Virtusa, we harness our extensive expertise in ServiceNow to deliver bespoke enterprise service management systems, driving efficiency, innovation, and tangible business value across various industries. Our team comprises seasoned professionals who excel in tailoring and configuring ServiceNow solutions to address the distinct needs and challenges of each client.

With a keen focus on ServiceNow's robust platform capabilities, including its low-code development tools and extensive integration options, we empower organizations to fully capitalize on their service management systems. Our approach entails comprehensive configuration and judicious customization to ensure seamless alignment with your organization's workflows, processes, and IT infrastructure.

As ServiceNow secure its position as the platform for spearheading digital transformation across enterprises, Virtusa is committed to providing comprehensive solutions by encompassing the entire spectrum of the security and compliance management platform.

At Virtusa, we proudly hold the esteemed status of Elite Partner with ServiceNow. With over 1500 certifications across ServiceNow modules in ServiceNow modules, our team is equipped with the expertise to deliver exceptional solutions. We boast a rich portfolio of over 40 client engagements spanning Advisory Services, Managed Services, and Implementation Services, with a customer satisfaction score of 4.9 out of 5, showcasing our commitment to driving success for organizations leveraging ServiceNow's transformative capabilities.

ServiceNow is dedicated to engineering excellence and governance efficiency, providing a wide range of solutions to meet diverse business needs. These solutions assist organizations in critical areas such as compliance auditing, vulnerability management, security incident response, regulatory compliance management, and threat intelligence integration.

Capabilities

Our range of capabilities encompasses a holistic approach to engineering and governance on the ServiceNow platform. Through seamless integration and intelligent automation, organizations can achieve unparalleled levels of efficiency and reliability.

Compliance assurance

- Frameworks and controls to meet regulatory requirements (e.g., GDPR, HIPAA, PCI DSS).
- Automation of compliance assessments, audits, and reporting.
- Demonstrates adherence to regulatory standards, avoiding penalties and reputational damage.

Unified security operations

- Centralized platform for managing security incidents, vulnerabilities, and compliance.
- Provides a single source of truth for security operations, enhancing visibility and collaboration.

Automated incident response

- Automation and orchestration of incident response workflows.
- Accelerates detection, investigation, and resolution of security threats.
- Reduces manual effort and response time, minimizing the impact on business operations..

Robust risk management

- Assessment, prioritization, and mitigation of risks across the organization.
- Integration of risk management processes with security operations for comprehensive risk visibility.
- Informed decision-making and resource allocation to address critical vulnerabilities and threats.

Actionable insights

- Provide 360 degree overview of security metrics and track performance.
- Identifies areas for improvement and enhances decision-making based on actionable insights.
- Enables continuous refinement of security posture to adapt to evolving threats and compliance requirements.

Success stories

We delivered compliance and control automation transformation to one of the largest financial institutes leveraging ServiceNow platform, resulting in:

95% efficiency and trust gain to vendor and customer.

80% decrease in security breaches and non-complemental issues.

About Virtusa

Virtusa Corporation is a global provider of digital engineering and technology services and solutions for Forbes Global 2000 companies in the financial services, healthcare, communications, media, entertainment, travel, manufacturing, and technology industries worldwide. At Virtusa, digital engineering is at the heart of everything we do. We are 35,000 builders, makers, and doers that partner with customers to reimagine enterprises and creatively build solutions to the most pressing business challenges that move them to the forefront of their industries.

Virtusa's unique Engineering First approach means never presenting an idea we can't execute. With deep industry expertise and empowered agile teams made up of world-class talent, we think about execution early in the process, because the earlier you think about execution the earlier an idea can have an impact. Solving from the inside out enables businesses to respond swiftly to changing needs with improved quality, lower costs, and lasting results.
